## **TORBJORN B. SJOGREN (Turbo)**

**Vice President – Global Modifications & Upgrades  
Global Services & Support**

Torbjorn Sjogren (Turbo) is Vice President of Global Modifications & Upgrades (GM&U), in the company's Maintenance, Modifications & Upgrades division of Global Services & Support (GS&S).

GM&U is responsible for the modification, upgrade and maintenance of a number of different aircraft types. Programs for the U.S. Department of Defense range from aircraft engineering support including the A-10, T-38, and QF-16 aircraft design and modification programs. Boeing's majority ownership in Alsalam Aircraft Company is also led by and supported by GM&U. Based in Riyadh, Saudi Arabia, Alsalam provides maintenance and modifications services to the Royal Saudi Air Force and commercial airplane customers.

Before undertaking his current assignment, Sjogren served in positions of increasing responsibility, including vice president of International Operations & Compliance, vice president of Alsalam Aircraft Company and vice president of International Support Systems in GS&S. In the Boeing Law Department, he served as lead counsel to GS&S and before that he served as Corporate International counsel.

Sjogren joined Boeing in 1996. Prior to that, he specialized in international commercial, corporate and regulatory law, while a private lawyer at Sher & Blackwell and Dow, Lohnes and Albertson, in Washington D.C.

Born in South Africa, Sjogren holds a bachelor's degree in arts from the University of Cape Town, South Africa, and a law degree from Tulane Law School, New Orleans, La.
