Major Projects Experience

RESTRUCTURING OF THE ROYAL NORWEGIAN AIRFORCE 2010-2013

As the Logistics Advisor to the Norwegian Air Chief, Colonel Haugen played a central role in the process leading to the planned restructuring of the Norwegian Air Force. This includes the Logistics and Sustainment concept for implementing the F-35 in the Air Force.

IMPLEMENTING AND DEVELOPING THE RNOAF ORGANIC LOGISTICS

2010-2013

Responsible for re-establishing and developing the Air Force organic logistics capability including first, second and third line of maintenance on the RNoAF Air Systems. In addition to implementing all Logistics support functions into the RNoAF.

IMPLEMENTING FUTURE STRUCTURE OF THE NORWEGIAN DEFENCE
LOGISTICS ORGANISATION (NDLO), 2009-2010

Deputy Coordinator, assisting in developing and implementing the future structure of the NDLO.

DEVELOPING AIRCRAFT SUSTAINMENT AND MAINTENANCE CONCEPTS FOR THE ARMED FORCES AIR SYSTEMS, 2007-2009

Lead Senior Officer in developing and implementing aircraft sustainment and maintenance concepts for the RNoAF Aircraft and Helicopter Systems.

RE-SHAPING THE WAREHOUSE AND SUPPLY STRUCTURE WITHIN THE ARMED FORCES IN NORTHERN NORWAY, 2005 -2006

Deputy Program Manager in NDLO, responsible for transforming Logistics post "cold war" structure to new operational requirements.

DEVELOPING AND IMPLEMENTING PROCESSES FOR MATERIEL SYSTEM SUSTAINMENT, 2001-2002

Instrumental in developing sustainment processes meeting new operational requirements.
